Line 1010 – Voice Services Rate Comparability

Cellular South Licenses, LLC SAC 259004 (Alabama) Form 481

Line 1010 - Descriptive Document for Voice Services Rate Comparability

The Commission's rules require a recipient of high-cost support to certify that "the pricing of the company's voice services is no more than two standard deviations above the applicable national average urban rate for voice service, as specified in the most recent public notice issued by the Wireline Competition Bureau and Wireless Telecommunications Bureau " 47 C.F.R. § 54.313(a)(1). The Wireline Competition Bureau ("WCB") released a Public Notice on March 20, 2014, specifying the national average urban rate for voice service and indicating that "each ETC, including competitive ETCs, must certify that the pricing of the voice services is no more than \$46.96." Public Notice, DA 14-384 (rel. Mar. 20, 2014), at 2.

Cellular South Licenses, LLC ("Cellular South") currently offers voice services that are below the \$46.96 specified in the WCB Public Notice. Specifically, Cellular South offers a Home Phone Replacement Plan that provides unlimited home phone voice minutes and unlimited nation-wide long distance minutes for a flat monthly charge of \$20.00. Given that the national average urban rate survey is based on local rate plans, an "apples-to-apples" comparison would derive a monthly charge for the local component of this Cellular South rate plan far below \$20.00. Accordingly, Cellular South's rate plan is well below the \$46.96 benchmark.

In the Further Notice, the Commission sought comment on how to define the "basic offering" that a mobile wireless provider must report for voice rate comparability purposes. Specifically, the Commission asked how a mobile wireless "basic offering" should be defined in a way that "take[s] into account packages that offer varying numbers of minutes of usage and/or additional features such as texting[.]" Connect America Fund Further Notice of Proposed Rulemaking, WC Docket No. 10-90, et al., 26 FCC Rcd 17663, 18046 (para. 1020). The Commission has not yet adopted a definition. In the absence of a definition of "basic offering" for purposes of the voice service rate comparability, Cellular South provides an analysis with respect to a rate plan that is arguably its most "basic" offering.
